

# *Alaska 200 Club*

## *16<sup>th</sup> Report*

### *1994*

The Alaska 200 Club emblem portrays a Steller's Jay, *Cyanocitta stelleri stelleri* [Gmelin, 1778 {Vancouver Island, British Columbia}], new to ornithology in July 1741 when discovered at Kayak Island (Southcoastal Alaska) by George Wilhelm Steller. This find convinced Steller that the expedition had indeed reached the New World, and in a manner, establishing the Steller's Jay as the first bird to the Alaska list. In the background is the vessel *Saint Peter* which carried Bering, Steller, and contingent to Alaska.

## SIXTEENTH REPORT OF THE ALASKA 200 CLUB

Presented herein is the Alaska 200 Club annual report for 1994. Originally formed in 1979 with 12 charter members, the Club added six new members in 1994 bringing the full roster to 181 - welcome Delesta Fox, Jim Bangma, Niroo Patel, Walter Bosse, Jim Logan, and Doug Baily. The total membership resides in 34 States, including 60 Alaska residents, the District of Columbia, and two Provinces and one Territory of Canada. Noteworthy individual achievements include Mac Smith (#152) of Michigan who became the 13th member to pass the 300 mark. And, Buzz Scher (#49) became the 3rd member to pass 200 species within the Municipality of Anchorage.

The Alaska 200 Club is comprised of individuals who have identified 200 or more bird species within the State. Member's lists submitted to the Club are not released to any other organization. The species basis for the Club is the *CHECKLIST OF ALASKA BIRDS* [including Unsubstantiated list] maintained by the University of Alaska Museum (UAM). As of 31 December 1994, the Checklist included 443 species with an additional 36 unsubstantiated; the one new specie added in 1994 is annotated below. Club members have reported 422 (95.3%) species from the Checklist plus 22 (61.1%) from the unsubstantiated list.

The Alaska 200 Club emblem portrays a Steller's Jay, new to ornithology in July 1741 when discovered at Kayak Island in south-coastal Alaska by Georg Wilhelm Steller. The presence of this bird convinced Steller he was indeed in the New World. Steller's Jay thus became the first bird on the Alaska list. In the emblem background is the vessel Saint Peter on which Bering, Steller and contingent reached Alaska. Replacement or extra Club patches can be purchased for \$8.

Tabulated below is the membership status ranked by total species at year end 1994, including roster number, current residence, and enrollment year followed parenthetically by the year of the most recent update. Asterisks behind a member's name identify former Alaska residents. Deceased member entries are italicized. Please check that your information is correct. New species added in 1995, including any due to AOU supplements, should be submitted by 15 January 1996 for inclusion in the seventeenth annual report. I hope everyone will have a prosperous new year, and the opportunity to improve their lists in 1995.

Robert L. (Buzz) Scher
