

Alaska 200 Club

41st Report

2021

The Alaska 200 Club emblem portrays a Steller's Jay, *Cyanocitta stelleri stelleri* [Gmelin, 1778 {Vancouver Island, British Columbia}], new to ornithology in July 1741 when discovered at Kayak Island (Southcoastal Alaska) by George Wilhelm Steller. This find convinced Steller that the expedition had indeed reached the New World, and in a manner, establishing the Steller's Jay as the first bird to the Alaska list. In the background is the vessel *Saint Peter* which carried Bering, Steller, and contingent to Alaska.

Nicholas Hajdukovich continues as Administrator for the Alaska 200 Club. Ed Clark continues in the role of Assistant Administrator. All new club membership submissions, patches or patch replacements should be directed to Nick Hajdukovich (nhajdukovich@icloud.com) or 229 Ididarod Avenue Fairbanks, Alaska 99701. Member's updates, changes in e-mail addresses, death notifications, etc., should be sent to Ed Clark (alaskabirder@outlook.com). Please send updates to the Assistant Administrator no later than 10 January 2023 to be included in the 2022 update. If you were not personally contacted by Ed in late December 2020 or early January 2021, we do not have a current or valid e-mail for you. Get in touch with us!
